J

Fort Scott April 5 1860

Wm L Garrison Esq

Dear Friend:

43

In the Standard of April 29-1859 is a letter from H Martineau; in it She says as follows "As the manchester meeting on it" (The African Civilization Society) "Kansas, the support of the Abolitionists and the free people of color in the United States, was declared to be attained". This is untrue as far as the colored people are concerned - I believe that it is equally as untrue as to White abolitionists: Be so to make an explanation to night week I wrote a letter to you some days ago for a letter as to your views and as to the propriety of the above statement to be read on the occasion: Will you please reply

Yours

Fri Douglass
